VOLUME VI. No. 45. Entered as second class matter, January 22, 1916, at the Post Office at Zion, Illinois, under the Act of March 3, 1879.

ZION, ILLINOIS, DECEMBER 20, 1919.

Single Copy 3 Cents.

## VACCINATION

The Foulest of All the Foul Inventions of the Devil and Some Dirty Doctors For the Creation and Spread of Disease, For the Debauching and Destruction of Humanity

NUMBER 1. MISS FANNIE LENT

NUMBER 2. MISS FANNIE LENT

The above photographs are of Miss Fannie Lent, of Cincinnati, Ohio. She was vaccinated when a child, and thereafter became a mass of running sores. She visited Zion City a few years ago, and has since died. She suffered the tortures of hell, and was a sight that would melt a heart of stone. These pictures tell the story of what vaccination can do, and has done in thousands of cases. The time has come to down the dirty doctors, and to drive vaccination back to hell where it came from.

### WORSE THAN SMALL POX

"With special reference to the epidemics of Minnesota during the past three years, the writer has facts the equal of any others that the deaths resulting directly and indirectly from vaccination exceed those from smallpox." —P. Barton, M. D., Inver Grove, Minn., in Medical Brief for December.

### DIED FROM VACCINATION

AT 1322—12TH AVENUE, MOLINE, ILLINOIS, FRIDAY, DECEMBER 11, 1914.

Paul Baker, four years old, only child of Mr. and Mrs. Baker, died Friday after a lingering illness of six months. Little Paul was a robust child, the pet of the neighborhood. In June he was vaccinated by Dr. Bennett; in a short time he began ailing. The parents called in Dr. Abel to treat him, who diagnosed the case as Arthritis, the direct result of vaccination.

NOTE: "I heard of the case last Tuesday and went at once to investigate. It was a pitiful sight. The parents were almost heart-broken. The father said he knew it was vaccination did it. I have collected the stories of several cases of people who were vaccinated, then took smallpox. There is a stir among the neighbors around the home of Baker against vaccination." —From Evangelist Shumaker.

Three thousand tracts were immediately sent for distribution in Moline.

### JURIES REFUSE TO ENFORCE A BAD LAW

Roger A. Ryan, of Cuyler, N. Y., was arrested and tried for not having his children vaccinated. The jury deliberated 15 minutes and brought in a verdict of not guilty and no cause of action.

This has been the result in a number of cases, in fact we have had no report of a conviction by a jury. Selected from "The Peril," of December 15, 1914.

Chicago Record Herald, Sept. 8, 1911.

### SAVE MY GIRL, \$10,000.00!

FATHER OFFERS PHYSICIAN FORTUNE IF HE CAN BRING CHILD THROUGH ILLNESS.

Vaccinated, has Tetanus

Money could not save the life of Ruth Provus, 4-year-old daughter of Max Provus, a member of the Provus Brothers Company on North Clark street. She died yesterday morning after all of Chicago's best medical talent had been consulted and in spite of the father's offer of \$10,000 to a famous specialist if he would but stay the night through and save his child.

"It is too late," said the physician as he attempted to quiet the distracted parents. "Your child could not possibly be saved. I cannot take your money, as no power on earth could restore her."

Ruth, with her two sisters and her mother, had spent the summer at a re-

sort near Benton Harbor, Mich. About two weeks ago Mrs. Provus thought she would have her children vaccinated so they would be healed by the time school opened this week. The vaccination "took" virulently with Ruth. The mother became alarmed and took her to Chicago. All the best physicians were brought in consultation at the home, 15 West Superior street.

"Your little girl cannot live. She has lockjaw and the case is hopeless," was the universal verdict.

The child moaned and suffered in agony. Wednesday night while she pleaded piteously for relief the father sent for the one surgeon who was considered the best fitted to conquer the disease.

He stepped into the sick chamber and made a hasty examination.

"That child has been the same as dead for six days," he said. "Her blood is now almost entirely decomposed."

"Oh, doctor, for God's sake stay through the night and save my darling baby," pleaded the distracted father. "I will give you \$10,000."

With the break of dawn yesterday the child's spirit fled. The funeral was held in the afternoon.

### MURDERED BY VACCINATION

Ellicottville, September 23rd. The funeral of Andrew Fedick, was held from St. John's Episcopal Church yesterday afternoon, the Rev. J. H. Parsons officiating. Burial was in Sunset Hill Cemetery. The deceased was the thirteen year old son of Jacob Fedick. He was vaccinated about two weeks ago. About the middle of last week he became seriously ill, and rapidly grew worse. He died Saturday afternoon. His death has aroused a strong anti-vaccination sentiment in the community where the Fedicks reside.

Dunkirk, October 13th.

Fred Stinefoot, nine years old, son of Mr. and Mrs. William H. Stinefoot, of No. 220 Mullet Street, died suddenly of tetanus at the Brooks Memorial Hospital this afternoon. The boy was vaccinated a little over three weeks ago. Last Monday he was taken with convulsions.

New York, November 20th.

Richard C. W. Waters, of Brooklyn, is prepared to bring suit for damages against the City, charging that his son, age eight, died of tetanus following compulsory vaccination. He suffered agony for a week before his death.

SPECIAL NOTE: Hundreds are murdered by vaccination every year, but only a small number of the cases are made public, for the murderous doctors resort to every trick known, and tell innumerable lies in order to cover up the results of vaccination, which, if fully known to the public, would create one of the greatest stirs in the history of the world.

Jacob West, Fradford-on-Avon. An acute and permanent sufferer from the effects of re-vaccination, submitted to in his youth. For many years has lost the power of voluntary movement of the lower limbs. Mr. West has long been a student of and an authority upon the vaccination question, and is a most prolific writer to the Press on the subject. Can it be wondered at that he has such an abhorrence for an operation which reduced him to his present pitiable condition, as here depicted?

Maria Hutchinson, Armsley, Leeds. A very fine child, born June 14th, 1889. Was in perfect health when vaccinated on August 8th. Commenced being ill four days later, and died on the 20th. Dr. Johnson, who attended, certified "convulsions and inanition from birth," as the cause. The parents were not satisfied, and the Coroner was communicated with, but the jury were told an investigation had been made by four medical men, and there was no need for an inquest. The father desired that the inquiry should go on, but without avail, and the jury published a protest in the local papers.

### ZION INSTITUTIONS AND INDUSTRIES

(WILBUR GLENN VOLIVA)

SELECTION OF HYMNS TO BE SUNG AND SCRIPTURES TO BE READ AT THE DEVOTIONAL EXERCISES OF ZION INSTITUTIONS AND INDUSTRIES FOR THE WEEK, MONDAY, DECEMBER 22, TO SATURDAY, DECEMBER 27, 1919

Monday,	December 22,	392	Psalm 119:105-112
Tuesday,	December 23,	440	Psalm 119:113-120
Wednesday,	December 24,	585	Psalm 119:121-128
Friday,	December 26,	654	Psalm 119:129-136
Saturday,	December 27,	593	Psalm 119:137-144

Miss Teresa Allsop, of Derby, who was compelled to be re-vaccinated in 1901, when employed by the Midland Railroad Company in their refreshment department at Bedford Station. She protested, but submitted on pain of dismissal. Swellings under the arm appeared, followed by sores, which filled with matter. She continued at work until October, when she was sent home for treatment. Then the other arm became affected, and both were covered with scabs. For 15 weeks Miss Allsop was an outpatient at Derby Infirmary; she suffered for 17 months, and lost her situation with the Company, which had forced her to be calf-poxed, in addition. The arms were not nearly at their worst when the photo was taken.

This child was vaccinated with glycerinated calf lymph by Dr. Batson, in the Dorking Workhouse, on March 7th, 1899, and subsequently broke out all over with sores (which were not at their worst when photographed). A brother who was vaccinated at the same time, died on March 25, 1899, an account of the circumstances appearing in Dorking Daylight, for September, 1899.

## The City of Zion

THE GATES of the City of Zion were opened in July, 1901. For several years prior to this date, John Alexander Dowie, the Leader and Founder, under God, of the Christian Catholic Apostolic Church in Zion, announced his intention of purchasing a tract of land and building Zion City as the Headquarters of the Christian Catholic Apostolic Church, and as a place of residence for the Officers, Members, and Friends of the Church.

HUNDREDS of thousands of prospectuses, pamphlets, and papers—"The Coming City," "Leaves of Healing," and "The Zion Banner"—were printed and circulated broadcast throughout the world, laying down in plain, unmistakable language, the conditions upon which the land would be leased, and by which the settlement would be controlled and governed.

IT WAS plainly understood by one and all that no land in the City of Zion would ever be sold, but that it would be *LEASED* for a period of eleven hundred years, and that the leases to be given contained numerous restrictions for the protection of both the lessee and the lessor.

Advertisement, entitled, "ZION CITY," issued by receiver John C. Hatley, between September 1, 1907, and October 15, 1907:

"1901—ZION CITY—1907"

"DELIGHTFULLY SITUATED, A JOY TO THE WHOLE EARTH."

"Hundreds of families located here for the past five years can testify to the truthfulness of the above."

"Why? because it is a *clean city for clean people*."

"You will find missing here the Saloon, Tobacco Shop, Drug Store, Gambling Resort, House of Ill-fame, Theater, and many of the other establishments which curse the earth and drag the younger generations down to perdition."

"But what you will find here is an IDEAL CITY FOR FAMILY LIFE, a City which has many attractions which should be interesting to honest home-seekers."

LEAVES OF HEALING, issue of December 2, 1899, Page 181:

"We will make it impossible to sell there the damning liquor, the accursed tobacco, the filthy drug poisons which make morphine-maniacs, and the abominable, filthy swine's flesh, which creates disease."

THE COMING CITY, issued April 30, 1902, pages 13 and 16:

"WHAT WILL BE SHUT OUT OF ZION CITY."

"Zion City will tolerate no breweries, no saloons, no drug or tobacco shops, or physicians' or surgeons' offices, no houses of ill-fame, no gambling hells, no theaters, no dance halls, no secret lodge rooms. The keeping or selling of the filthy swine or their diseased flesh, which God has strictly forbidden as food, is absolutely prohibited."

"LEASES"

"The lots are transferred only by long-term lease from John Alexander Dowie. These leases expire January 1, A. D. 3000. The lessee agrees to use the land only in accordance with the terms of the lease. The lease eliminates all of the objections previously mentioned."

## ZION

THE ONLY CITY OF ITS KIND IN THE WORLD. FOUNDED BY JOHN ALEXANDER DOWIE AS THE HEADQUARTERS OF THE CHRISTIAN CATHOLIC APOSTOLIC CHURCH IN ZION, AND AS A PLACE OF RESIDENCE FOR ITS OFFICERS AND MEMBERS.
